

REVISTA CATALANA DE PEDAGOGIA

Use of templates

The *Revista Catalana de Pedagogia* suggests the use of the templates that can be downloaded in this same page for the presentation of **research** and **experiences works**. They are easy to use and ensure that the text conforms to the formal criteria of the journal. You only need to copy and paste the original text in the corresponding section of the template.

On the other hand, all the simplified formal directions listed there can also be found on the website of the journal, in the "Instructions for the author" section.
