

Bibliography of works on textile geography of the members of the International Standing Working Group of Textile Geography

Tadeusz MARSZAL

One of the initiatives put forward at the forum of the International Standing Working Group of Textile Geography is undertaking activity aiming the elaboration of bibliography of the textile geography in the world. The idea of such a bibliography is now under discussion. The presentation of the scientific output in the field of textile geography of some members of the International Standing Working Group of Textile Geography is the first step to realize this difficult task. Publishing the proceeding from next Plenary Sessions we intend to continue this initiative. All the members who are interested in it are requested to send the bibliography of their works on the textile industry, as well as the actual information about all new publication to the Secretary of the Working Group.
